

### iConverter® 1-Module Passive Chassis

Module not included

### KEY FEATURES

The iConverter 1-Module Passive Chassis is a one-slot, unpowered standalone chassis that can house all passive iConverter single slot modules. It is designed for network edge or Customer Premises deployments where unpowered, low-profile, low cost and flexible upgrades are important, making it an ideal solution for Enterprise, datacenter and metro access interconnectivity.

The unit can be wall or DIN-rail mounted with optional mounting kits. Utilizing the iConverter 19" rack-mount shelf, up to four chassis can be securely mounted side-by-side in a 1 RU space.

- Compact unpowered 1-Module Passive Chassis
- Supports single slot passive iConverter CWDM/DWDM Multiplexers and OADMs
- Wall-mount or tabletop options for flexible installations
- DIN-rail, 19" and 23" rack mounting options available
- Made in the USA
- Lifetime Warranty and free 24/7 Technical Support
